Office Action Summary

7

Serial No. 09/520,249

Art Unit 1714

Pursuant to a telephone conversation on November 26, 2001, applicants' attorney, Paul Chirgott, elected claims 1-6 and 18-31 and elected as the species alkyl methacrylate, both elections made without traverse.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- (e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The following is a quotation of 35 U.S.C. § 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Serial No. 09/520,249

Art Unit 1714

Claims 1-6 and 18-31 are rejected under 35 U.S.C. § 102(b) as being anticipated by Vaughn or Takahashi or Chen or Gujarathi or Grimm.

Claims 1-6 and 18-31 are rejected under 35 U.S.C. § 102(e) as being anticipated by Lee or Thames or Selvarajan or Belik or Pavlyuchenko. All of these references are cited by the Examiner on the Form 892. Applicants' claims are directed to a composition comprising polymer and water. The claimed composition may be in the form of an emulsion or in the form of a coagulated slurry. The polymer may be a graft polymer. All of these references disclose compositions comprising water and polymer having the recited amount of polymer. See the Abstract of Vaughn. Takahashi discloses graft polymer in the Abstract. See the Abstract of Chen. See the Abstract of Gujarathi. Grimm discloses coaqulated slurry in the Abstract. See the Abstract of Lee. See the Abstract of Thames. See the Abstract and claim 1 of Selvarajan. See the Abstract of Belik. See the Abstract of Pavlyuchenko. Pavlyuchenko is a multistage polymer as recited in claims 20 and 21.

Claims 1-6 and 18-31 are rejected under 35 U.S.C. § 103(a) as being unpatentable over Vaughn or Takahashi or Chen or Gujarathi or Grimm or Lee or Thames or Selvarajan or Belik or Pavlyuchenko. Applicants' claims recite that the composition comprises 5 to 70% polymer. It would be obvious to one of

Art Unit 1714

ordinary skill in the art to formulate aqueous compositions comprising 5 to 70% polymer in any of these references. The motivation is that it is within the skill of one in the art to select a suitable percentage of polymer in an aqueous polymer composition.

-4-

Applicants' claims 18-31 were presented in a preliminary amendment dated November 20, 2000.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul Michl whose telephone number is (703) 308-2451. The examiner can normally be reached on Monday through Friday from 7:30 A.M. to 4 P.M.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vasu Jagannathan, can be reached on (703) 306-2777. The fax phone number for this Group is (703) 305-5885.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 308-2351.
